

## Anatomy

### 1. **Crossover frequency**

Draggable thumbs for adjusting the bands crossover frequencies. Frequencies will be synchronised among all instances of the plugin that belongs to the selected group.

### 2. **Band On/Off**

Toggles a specific band on/off.

### 3. **Group**

8 different groups are available. Frequencies will only sync within the selected group.

### 4. **Activate**

Press the banner to authorize. Serial numbers can be purchased at <http://klevgrand.se/products/gaffel> (also accessible by clicking the Klevgrand logotype in the plugin).
